EU 122 Vertical Piano

The new EU122 Professional Studio Upright Piano works confidently alongside grand pianos in the teaching studio. Its size allows for a soundboard area that is comparable to many smaller grands. Sturdy back construction including leg toe blocks and large casters, plus an extremely responsive action, make this piano a worthy contender in demanding, high use venues.

The Pearl River Piano Group Ltd. was established in 1956 and has rapidly grown to become one of the world's leading piano manufacturers. Today with nearly 4,000 employees and over 3 million square feet of production space, Pearl River has the capacity to manufacture over 100,000 pianos per year.

Pearl River is proud to be the first piano factory in China to be awarded the ISO 9001 Certification for Quality Control Systems and was also recently awarded ISO 14001 for Environmental Management System Compliance.

Specifications:*

Action:	<i>Pearl River direct blow studio</i>
